

MSK Practitioner

Priory Medical Centre, Cornlands Road, Acomb, York (YO24 3WX)

Do you want to work within flexible clinics, providing both urgent and routine appointments?

Do you want the ability to independently manage your patients with the opportunity to follow up and provide continuity of care?

Do you want to develop your clinical skills further?

Do you want to feel like you are working at a small practice with the background support of a larger practice?

Do you want to work alongside a highly skilled multidisciplinary clinical team?

Main duties of the job

Assessment, Diagnosis and Treatment of patients with joint and muscle pain.

Independently manage patients with a range of long term or acute onset symptoms.

Be able to independently prescribe and undertake joint injections.

The role of a first contact MSK practitioner is varied and rewarding. You will be able to independently manage patients with a range of long term or acute onset symptoms. We are able to enhance your professional development be that independent prescribing attainment or supporting your training to undertake joint injections.

Salary: Dependent upon experience

Working Hours: Permanent contract with full time and part time roles available
