WHY IT MATTERS

After a fall, some people may remain on the floor for a long time, this is called a “long lie”.

We are doing a study to understand how a long lie can affect your health, and how people could be better supported.

WHO ARE WE

Research teams at the University of Sheffield and Yorkshire Ambulance Service.

The study is taking place nationally, between April 2024 and March 2026

Help us make a difference in post-fall care. Your voice matters.
